Servers  
Stereos  
TV's (\$10/\$20—Fee due to hazardous content and size)  
Typewriters  
UPS Units (Uninterrupted Power Supplies)  
VCR's  
Video Game Consoles and Controllers

Over the years, the environment has become a crucial concern for all industries. It is imperative that we recycle responsibly. Manufacturers of electronics are not environmentally conscience. That is left up to recycling companies. We will separate the metals and plastics and return them to the supply chain to make other products.
